

## Decorative Wall light LED

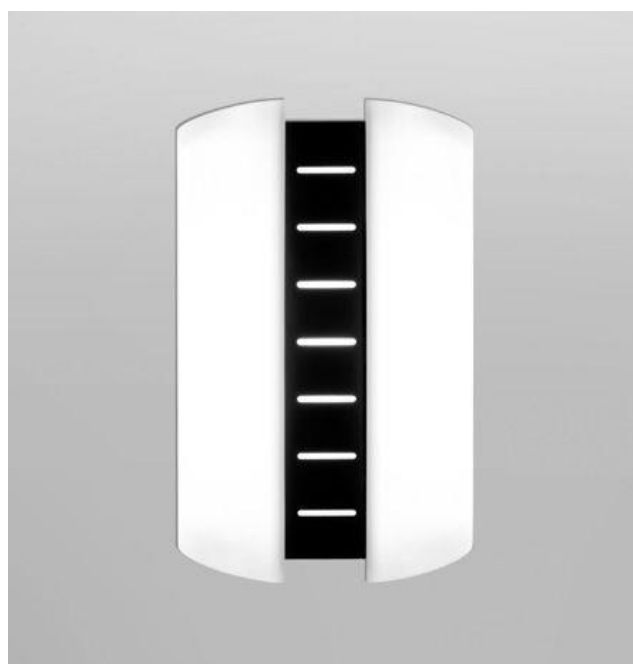

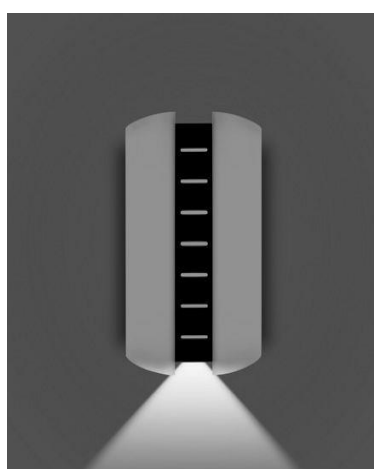

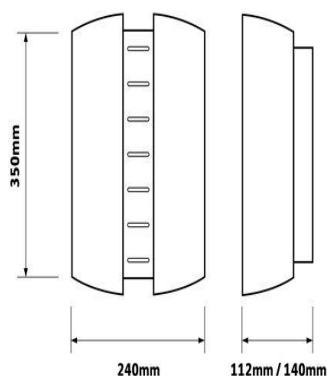

## Murre

### Description

Murre is a decorative LED wall light, using the latest LEDs it gives an even, light distribution across either side of the luminaire with a feature down the centre giving an elegant finish to the design, the centre can also be used for for bespoke signage.

The Murre has an extruded acrylic diffuser and integral emergency is an added feature of the wall light. The driver is integral and dimming is available.

Murre is an ideal addition to any number of applications. (Please email for more details if survey required)
