

Mini linear LED Downlighters

Shikra

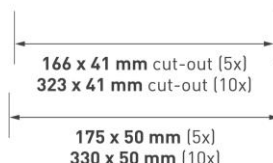

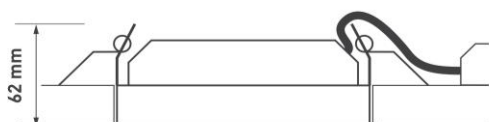

Description

Shikra is a high end mini linear LED downlighter, in terms of design and features it offers both flexibility and efficiency and looks really classy when trimless.

Shikra has Samsung high power/high efficiency LED's housed in an extruded aluminium housing and is fitted with an IP44 protective lens as standard. Standard colour is white with black baffle but any RAL variation is possible.

Shikra is available in 5 or 10 downlights as standard but any option is possible. Shikra WW is an adjustable version for continuation through design.

Please contact us for any further information or if assistance with a scheme or survey is required.
