

Surface/ Suspended LED linear Luminaire

Alba suspended

Description

Alba was originally designed to replace existing T5/T8 fittings, Its slim profile and design make it unique. Alba has a robust polyester powder coated steel body, standard in white (RAL 9010) but is available in any RAL colour and you can choose to have different coloured end caps. Using Tridonic LLE module and Talexx converter for optimum efficacy, along with a highly efficient acrylic diffuser for consistent illumination. For optimum savings, add smart sensor and/or dimming. Integral emergency is also an option.

Please contact us for more information or if you require a survey.
