

Description

Cygnets is an LED system designed for continuous lines of light giving interest to almost any application. Available in recessed, surface or suspended, corners, dali, emergency. Cygnets houses the most efficient latest generation LEDs with long life and energy efficiency. Designed for specific installations with choice of optics, sizes, IP ratings and much more. The range covers Light Boxes, cove lighting and joinery through to signage lighting, please email for more information and specific project details.

Cygnets S14 is part of the range of profiles and the LED strip can either be used on its own or housed in the numerous profiles available (please contact us if you require a size that is not on our website as others are available). The LED strip is available with up to 4 rows of LEDs. Cygnets S14 can house two rows of LEDs.
