

Square Self Contained LED Emergency Downlighter

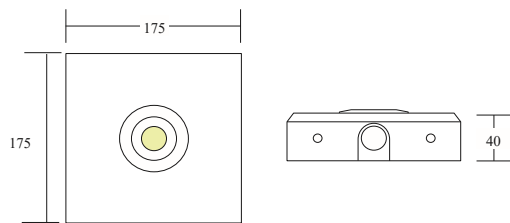

OWL4 4854203S

Description

Owl4 Square Self contained recessed or surface offers a simple method of stand alone emergency lighting solution for all Interior applications, incorporating OWL3 and all its benefits but giving a square solution for personal preference. IP40 surface.

Standard DALI/Self-Test offers self-contained, non-maintained operation emergency lighting with integral automatic Self-Test or DALI communication from a single product. The excellent performance allows the units to be mounted at very wide spacing's making installation simple and cost effective.

Owl4 Square surface or recessed mounting enclosure houses an 'intelligent' proSeries DALI/Self-Test LED driver and a Lithium Iron Phosphate (Life) battery. A 3Watt high power white LED is mounted in the fascia plate in conjunction with a choice of wide angle or 'corridor' distribution lens. As soon as Owl4 is switched on it operates as a self test unit, connect it to a DALI system and it provides full automatic testing.

Options

Standard options
