

Description

Cygnet Range is an LED system designed for continuous lines of light giving interest to almost any application. Available in recessed, surface, suspended and corners, the options are limitless. Cygnet Range houses the most efficient, latest generation LEDs with long life and energy efficiency. Designed for specific installations with choice of optics, sizes, Dali, RGB, IP ratings and much more. Cygnet range covers cove lighting and joinery through to signage lighting, each project is designed as required so please email for more information and/or specific project requirements.

Cygnet S24 is part of our range of profiles, part numbers below come complete with 10W LED tape, any of our LED tape can be used within so please specify when ordering, if a different wattage is required.

We have numerous profiles available, please contact us if you require a size that is not on our website as others are available.
