

Surface or suspended LED made to measure light boxes

DUSKY

Description

Dusky is a new range of LED made to measure light boxes. All light boxes are manufactured to your projects requirements and either use an opal diffuser or a fire rated Stretch fabric, both have uniform diffusion. Dusky is made from high quality aluminium fabricated housing, finished in powder coating with your choice of colour. Dust and insect proof and easy to install. Available as surface, recessed, suspended or wall mounted. Up lighting available. Tunable white, RGB, 4000K or 3000K. Dali, 0-10v dimming available.
